County committeemen—Place, 16; Conner, 5.

CONSERVATION NOT UNDERSTOOD BY THE PEOPLE

Continued from Page One.)
to encourage the cutting out of the way, and doing all we can in this generation, believing that the next generation will find new duties suited to their advanced condition, and change of needful requirements.
"Wise conservation with use means the maximum of efficiency and profit, with the minimum waste and cost. We do not wish the few to have unfair advantage. We desire each and all to have opportunity according to his talents and his physical or financial ability, that the known and unknown resources of a country shall not be gobbled up by a few without an equal opportunity to others who can furnish the same needed measure of requirements to insure success. We realize that corporations are necessary to develop a great country; that aggregations of capital made up from large and small stockholders of the people, can accomplish more with less waste than can individuals. They can put in expensive and saving devices, and can operate at a far smaller percentage of profit.

"Just so with Alaska's coal. Alaska needs coal, and all we ask is that some fair method shall be adopted, which will best subserve the requirements, and will encourage development.

"Conservation and economy must enter into our every life; and every effort should be made to bet the most out of little; to find a use for what we are now in various ways wasting. In European countries the hard struggle of the masses have produced the saving habit, a virtue we have got to learn and practice individually and as a people, before conservation will become a national success. Unless we halt in our mad extravagances, perhaps there will come to us in some degree these sad experiences of suffering, which has put the saving principle into the very fiber of the old world's peoples; and we will learn our lesson, as they long ago learned theirs. We must each share the burdens of conservation, and we will likewise all share in its blessings.

"The science of conservation as a philosophy is wholly independent of who owns the property, but its successful practical application often depends very much as to ownership. Combinations of capital have the advantage, and this needed capital gives greater possibilities for conservation. Compare the country butcher and his 50 per cent waste with the million dollar packing house, which has no waste. Is it not the fault of conservation that there are extremes in combinations resulting in trusts or monopolies. They are practicing conservation in the extreme, in saving of raw material by greater utilization, and by the discovery of new uses for by-products. The Standard Oil company is another example of the very fineness of division and subdivision of by-products, which find a place in therapeutics, in the arts and in vaseline, paints, dyes and a hundred other valuable chemical products. This is conservation."

GOOD COMEDY AND STRONG DRAMA AT THE BUTLER

EVERYBODY WHO ATTENDED
PERFORMANCE YESTERDAY
ENJOYED THE FILMS.

Everybody enjoyed the laughable comedy last evening at the Butler, entitled "Michael Grady's Death," and well they might, for it is certainly one of the best of its kind. For today the program is, "A Texas Jake," a comedy representing the royal manner in which visitors are treated and entertained. It is exceedingly funny. Tommy gets his sister married to a fellow of his liking. Of course this leads to difficulties but Tommy is finally successful. "Pure Gold" is the story of two stock brokers on the day of a panic. As the tape reels out from the ticker one sees his fortune vanish, while in the other office the same ticker tells the story of an honest fortune lost. The loser is the hero of the story. Of course there is a mingling throughout of a love romance in which two young ladies figure but in the end the girl from the western mining camp shows him where his true love lies.

TONOPAH PUBLIC SCHOOLS OPENED TUESDAY MORNING

FORMER STAFF OF GRADE
TEACHERS HAVE BEEN EN-
GAGED FOR THE TERM.

Tuesday the public schools of this city opened after being closed for about three months. The attendance is about the same as when school closed, although a number of the pupils have not returned from outside points where they spent their vacation. The entire former staff of teachers, with the exception of Prof. Luttenton, the science teacher, have been engaged to teach the term and were present to take up their duties. Principal C. Schoer, Jr., who spent his vacation in Denver attending the summer school, is expected to return today, from the eastern part of the state, where he stopped off for a few days to visit with his parents.

A newspaper offered a prize for the best answer to the conundrum: "Why is a newspaper like a woman?" The prize was won by a young woman in Oklahoma, who sent in the following: "Because every man should have one of his own and not run after his neighbor's."—Helena Independent.

No prizes given away—but we print all the news, both local and foreign. Daily Bonanza and S. F. Bulletin, \$1.25 per month.

PRINTER HAD A FEW IDEAS OF HIS OWN

MAKES SERIOUS ERROR IN SET-
TING UP ADVERTISEMENT
TUESDAY.

The poor typo in the print shop is blamed for every error that occurs, and a mistake that happened in yesterday morning's issue of the Bonanza is thoroughly in keeping with the practice of the typists. The Nevada Club advertisement was ordered changed and the copy submitted read, "Ten thousand smiles in a glass; not one cross word in a barrel. The Nevada Club."

Instead of that the compositor, who was somewhat excited about the election returns and the speed shown by Governor Oddie, managed to get things mixed and changed the ad to the following: "Ten thousand cross words in a glass; not one smile in a barrel." Naturally we have to make apologies and promise that it will never happen again.

COUNTY DADS WILL SOON MAKE OFFICIAL COUNT

FRIDAY IS DAY SET BY LAW TO
CANCEL THE BALLOTS OF
THE COUNTY.

The board of county commissioners met yesterday at the regular monthly session with a full attendance. The only business transacted during the day was the approval and allowing of county bills. The town bills will come up for consideration today.

The board will make an official count of the ballot returns Friday if every precinct is heard from at that time. As it is nearly impossible for some of the outlying precincts to send in the ballot boxes by this date, it seems probable that the count will not be made until Monday. The only precincts that are in so far are Liberty, Golden Arrow and Manhattan. No unofficial report could be secured from the first two places.

Eddie Prout won the \$10 prize for lowest score at Charlie's last week. Score, 10; possible, 5.
9-8-11.

COMMERCIAL RATES

SUMMONS.

IN THE DISTRICT COURT OF the Fifth Judicial District of the State of Nevada in and for the County of Nye.

Ellen G. Oddie, Alice T. Oddie and Montana-Tonopah Mining Company, a corporation, plaintiffs, vs. Mae Zawaskie, John Doe, Richard Roe, Peter Doe and Jane Doe, defendants.

Action brought in the District Court of the Fifth Judicial District of the State of Nevada, in and for the County of Nye, and the complaint filed in said County of Nye, in the office of the Clerk of said District Court.

The State of Nevada sends greetings to Mae Zawaskie, John Doe, Richard Roe, Peter Doe and Jane Doe, or defendants.

You are hereby required to appear in an action brought against you by the above-named plaintiff in the District Court of the Fifth Judicial District of the State of Nevada, in and for the County of Nye, and to answer the complaint filed therein, within ten days (exclusive of the day of service) after the service on you of this summons, if served within this county; or, if served within this county, but in this district, within twenty days; otherwise, within forty days; or judgment by default will be taken against you, according to the prayer of said complaint.

The said action is brought to quiet title to the "Miriam" mining claim, adjoining the "Montana-Tonopah" group on the north, situated in the Tonopah Mining district, Nye county, Nevada; and to compel the defendants to set forth the nature of any adverse claims to said property and any claim they, or any of them, may have to any interest or right to or in said property or any part thereof; and to obtain from said court a judgment and decree declaring the plaintiffs to be the sole and absolute owners of said property and declaring the defendants, and each of them, to be utterly without any right, title or interest to or in said property; and debarring each and all of the defendants from asserting any claim whatsoever in or to said "Miriam" mining claim or any part thereof; and granting such further relief as to the court may seem proper.

And you are further notified that if you fail to appear and answer said complaint as above required, said plaintiff will apply to the court for the relief demanded therein.

Given under my hand and the seal of the District Court of the Fifth Judicial District of the State of Nevada, in and for the County of Nye, this 26th day of August, in the year of our Lord one thousand nine hundred and ten.

Attest: A true copy.
(Seal) ROBT. G. POHL,
Clerk.
